

Executive Search Graduate Programme (Asset Management)

Job Summary

- Role: Graduate Research Associate, Full time
- Location: City of London
- Salary: Market competitive plus bonus scheme
- Start Date: Flexible

Job Description

Magellan Advisory Partners is looking for a Graduate Research Associate to join an innovative team supporting Senior Consultants across their portfolio of Asset Management clients.

In this position, you will have the unique opportunity to learn about specific asset classes, such as Fixed Income, Equities, Private Markets and Multi-Asset, in addition to understanding the intricacies of the investment management industry. You will help the team deliver high quality research and consultation for global client assignments, working directly with Senior Consultants, who will mentor you throughout your journey and invest in your career development.

Research Associates will be responsible for supporting executive search Consultants in their day-to-day functions, this includes research projects, asset-class mapping, and senior client hiring assignments. As Research Associates learn the fundamentals of executive search, there will be opportunities to specialize in specific asset classes or segments which you find most interesting. Magellan will offer continual support to equip you with the best skillset possible for you to progress and prosper within the firm. Magellan Advisory Partners offers the chance to gain extensive knowledge and develop expertise in the asset management industry, whilst offering you the ability to connect with senior industry leaders globally.

What are we looking for?

Successful candidates will be commercially minded, ambitious individuals who love to challenge themselves. They will possess excellent communication and interpersonal skills, while having the ability to interact credibly with individuals from all levels of global organizations.

- Highly organized, outstanding time management skills and ability to prioritize.
- Excellent writing skills and ability to produce high quality, well-structured documentation for clients.
- A genuine passion for financial markets.
- A strong desire to deliver excellent outcomes for clients.
- Proficient in all areas of MS Excel, PowerPoint, and Word.

Education Requirements:

- Bachelor's degree in any discipline
- Grade 2:1 or above

Key Responsibilities:

- Undertake in-depth industry research across multiple asset classes and investment firms.
- Interact with senior investment professionals.
- Help co-ordinate client assignments and prepare project updates.
- Assist in championing key industry initiatives, such as diversity & inclusion and ESG/Sustainability.
- Develop strong asset management industry knowledge and identify industry/sector trends.

About Us

Magellan is a specialist Executive Search practice in the Asset Management industry, focusing on Senior hires on behalf of many of the world's largest global Asset Management firms. We have deep relationships with industry leaders and work on complex, highly additive assignments for clients that help them to achieve their strategic goals. We have specialised in building out whole investment platforms, typically across multiple locations, as well as directing clients' capital raising strategies and developing their global distribution footprint. We focus on client excellence and maintain deep relationships with industry leaders across many disciplines, advising on suitable growth strategies, asset class development and corporate intelligence. Magellan also has M&A capability and has been involved in multiple deal processes across EMEA and North America.
